COORDINATED BY:

TEENS & SEXUAL HEALTH

Dr. Gold will provide an in-depth look into the current issues that face adolescents and young adults when dealing with their sexual health. She will present up-to-date information on many clinical topics surrounding teens and sex. There will be ample time for discussion, questions and answers. Dr. Gold brings a wealth of expertise and serves as the Director of Family Planning Services and Adolescent Medicine Research at the Children's Hospital of Pittsburgh, as well as a Consultant for to the DHHS, OPA since 1998. Her research interests lie in the areas of adolescent sexuality and contraceptive behaviors and the use of Motivational Interviewing to facilitate health behavior change.

DISCUSSION TOPICS

Teens and Sex Topics:

- Providing teen friendly health care services to include taking sexual history
- Essentials in contraception
- Challenges of providing contraception to adolescents and young women
- Providing contraception to adolescents and young women with chronic medical conditions
- Bone health in adolescents: a discussion of contraception and bone mineral recover
- Teens, Sex and Depression
- Teens, Sex and Weight
